

FEATURES

- Large range of transmitters
- Easy to install
- Ideal solutions for problem sites
- Can be programmed for supervised or non-supervised
- 1 to 5 year battery life
- Maximum system flexibility
- EN Grade 3, Class II wireless modules ONLY

VISONIC... transmitters can only be used with the Visonic Wireless Module

- 170m open field range
- Wide Band 868 MHz technology
- Cost effective wireless solution
- Transmitters readily available via established distribution networks
- Ideal for use in residential applications
- Extensive range of transmitters

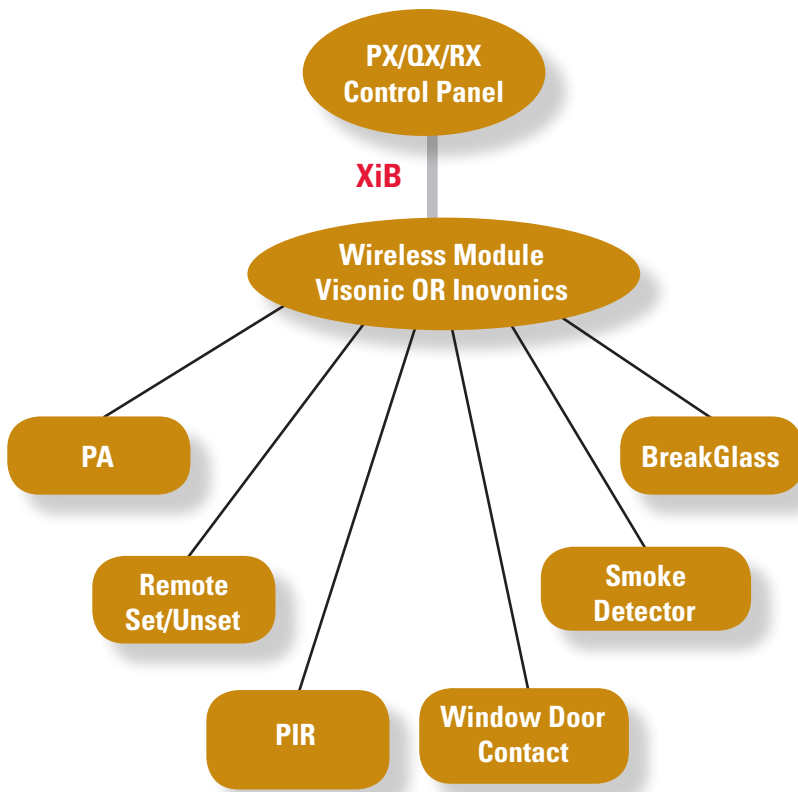

INOVONICS... transmitters can only be used with the Inovonics Wireless Module

- 1 km open field range
- Narrow Band 868MHz technology
- Extensive range of transmitters
- Well established, leading edge, wireless manufacturer
- Robust, high quality product, ideal for difficult industrial applications and poor reception areas
